

# CoCASA Version 12.1 Changes

## **CoCASA Enhancements/Modifications**

1. Added 2HepA to the Adolescent section of the Assessment Results tab.
2. Modified the labels on the Assessment Results tab to match those in the AFIX Online Tool.
3. Removed the Questionnaire, Feedback, Initial Follow-up and the Subsequent Follow-up tabs.
4. Removed all of the AFIX Evaluation reports, including the AFIX Annual Report.
5. Removed the Comparison reports.
6. Removed the Incomplete Assessments report.
7. Modified the HPV report to only include 1 dose of HPV and UTD HPV. Removed the HEDIS Measure section and the Series Completion section. Changed some labels to be more specific and accurate to fit the new HPV algorithm that was changed in version 12.0.
